

## ACTIVITY

# MAKE A SOLAR OVEN

### Kids, make a solar oven!

- 1 Find a medium-sized cardboard box and line the inside with foil. Turn it upside down. Cut open one side of the box so there is an opening.
- 2 Fill a medium-sized pot with water (half full) and one cup of rice. Place inside the oven or in a very sunny position outside. Watch and see what happens over the next 2–3 hours.
